The 29th May, 1950. }

S. P. JAIN,

for Registrar General, India.

# NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

**TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT**

Births and deaths from principal diseases in towns with a population of over 50,000 in India for the week ending the 6th May, 1950.—contd.

Explanation of symbols used:—B.=Births; B.R.=Birth rate; C.=Cholera; S.=Smallpox; P.=Plague; F.=Fevers; D. D.=Dysentery and Diarrhoea; R.D.=Respiratory diseases; M.D.=Maternal Deaths; D.R.=Death rate; I.D.=Infantile Deaths (included in total Deaths).

## REMARKS

The figures of births and deaths shown in this statement for the week ending the 6th May 1950 relate to 129 towns with an estimated population of 19,750 thousands. The total number of towns is 233 and their population is 28,421 thousands. Thus 55% of the total number of towns representing 69% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 8,569 and 7,942 representing birth and death rates of 22·6 and 20·9 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 110 towns with an estimated population of 17,294 thousands. Information about Assam, Bihar, Madhya Pradesh and Madras could not be included. The total number of towns is 201 and their population is 24,668 thousands. Thus 55% of the total number of towns representing 70% of the total population is covered. The numbers of births and deaths recorded in these towns were 7,499 and 7,098 representing birth and death rates of 22·5 and 21·3 per thousand of population

respectively. The table at the end gives the position by states.

The towns of Hathras and Etawah in Uttar Pradesh recorded high death rates of 59·3 and 57·4 per thousand of population respectively. In Hathras the high death rate was mainly due to deaths from fevers and in Etawah, the high death rate was largely due to deaths from fevers and respiratory diseases.

(B) States (Part B).—The data here relate to 19 towns with an estimated population of 2,456 thousands. The total number of towns is 32 and their population is 3,750 thousands. Thus 59% of the total number of towns representing 65% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,070 and 844 representing birth and death rates of 22·5 and 17·9 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand population.

The 29th May, 1950 }

S. P. JAIN,  
for Registrar General, India.

## MINISTRY OF HOME AFFAIRS

Age Tables for West Bengal, based on the 1941 Census Y-sample, were published in the Supplement to the *Gazette of India*, dated the 14th August 1948. Similar tables for Assam and Orissa were published on 15th January 1949 and 2th November 1949, respectively. Tables for Bihar are now published. The general considerations mentioned in the Introduction published with the West Bengal Tables apply also to these tables.

FATEH SINGH,  
Deputy Secretary.

## NOTE

The following States have been merged with Bihar ; the tables therefore include figures for these territories also :

Seraikela  
Kharsawan

## BIHAR

## I—AGE AND CIVIL CONDITION

Tables for Bihar and each District.

The figures shown in these tables are estimated from the information provided by the Y-sample.

Divorced persons are included among the Widowed groups.

Age details for divorced persons are shown below :—

Age Group	Divorced		
	Total	Male	Female

**III—AGE LAST BIRTHDAY**

Table for Bihar and each District.

The figures shown in these Tables are estimated from the information provided by Y-sample.

Figures noted against any age are the number of individuals returning their ages as such. In other words, no correction has been made for mis-statement of age.
